GE Proprietary Information – subject to the restrictions on the cover or first page
These and other Technical Documents are available through myGEAviation. If you already have access to Engines documents through myGEAviation and need access to Airframe Systems Technical Documents and Dowty Propellers, sign in to myGEAviation (https://mygeaviation.com).

Open the Widget Catalogue (+ sign on the right side of the page)
Select "Request Access" link

If you need access to Airframe Systems Documents, please type "Technical Documents Airframe Systems" in the comments box before you submit this application.

If you need access to Dowty Propeller Documents please type "Technical Documents Airframe Systems and Dowty Propellers" in the comments box before you submit this application.

Note: Please allow up to 10 working days for this process to complete.

Ref: SIL GEN-38

Date: May 2019
When you have been given access, this application can be found by selecting the Links Widget and typing:
“airframe”
Then you need to select Publications I Technical Documents I Airframe Systems and Dowty Propellers
PROCESS B

If you do not have access to the myGEAviation:

- Go to https://mygeaviation.com

- Select "Request Access"

- Enter your email address and click GO

- If you see the message “your email address did not match” type in your company name.

- If you see the comment "no results found" please click box as indicated in the highlighted screenshot regardless if you are looking for support from GE or Dowty.
Note: Systems and Dowty customers must use the name and email address of their Customer Support Manager (CSM) or Field Service Engineer (FSE) if asked to provide their GE/Dowty contact’s information.

When access has been approved, the latest versions of the documents which your company is entitled to will be available.

Airline Technical Libraries should have at least one person registered for on-line access to ensure that you are kept up to date with all document revisions that your company is entitled to.

For email notification of publications please refer to GEN-40

If you cannot access publications on-line, please email: aviation.fleetsupport@ge.com
